INFORMATION DISCLOSURE STATEMENT

Sir:

In compliance with the duty of disclosure under 37 C.F.R. § 1.56 and pursuant to 37 C.F.R. §§ 1.97 and 1.98, it is respectfully requested that this Information Disclosure Statement be entered and the attached references listed on attached form PTO-1449, which relate to the subject matter of the present invention, be considered by the Examiner and made of record.

It is believed that no fees are due at the present time as this statement is being filed under 37 C.F.R. § 1.97(b). However, in the event of any inadvertent fee deficiency or overpayment, authorization is hereby given to charge or credit such deficiency or overpayment to deposit account number 12-2147.

Filed herewith is a copy of each reference listed on form PTO-1449. For non-English-language reference FR 2 818 265, an English-language version of a search report from a counterpart international (PCT) application which indicates the degree of relevance of said reference as determined by the European Patent Office, is attached

hereto in accordance with section 609 III. (A)(3) of the Manual of Patent Examining Procedure (MPEP), second full paragraph, in fulfillment of the concise explanation of relevance requirement set forth in 37 C.F.R. § 1.98 (a)(3)(i). Applicants wish to note that reference FR 2 818 265 was given an "A" designation on the search report, indicating that it defines the general state of the art only and is not considered to be of particular relevance. Likewise, references US 5,739,031 and US 4,895,645, also listed on the search report, were given the same "A" designation.

While this statement contains all of the relevant information presently known to the Applicants, it should not be interpreted as a representation that an exhaustive search has been conducted or that no other relevant information exists. Moreover, the Applicants invite the Examiner to make an independent evaluation of the cited references to determine their relevance to the subject matter of the present application.

Finally, the Applicants urge that their claims are patentably distinguishable over all disclosed relevant information or any combination thereof.

Respectfully Submitted,
Lorusso & Loud
